

Maxim Integrated

MAX2135AE/W+CL8

Part Number:

MAX2135AE/W+CL8

Manufacturer/Brand:

Maxim Integrated

Product description:

IC TUNER ISDB WAFER EPSON

Datasheets:

 MAX2135AE/W+CL8.pdf

RoHs Status:

 Lead free / RoHS Compliant

Ship From:

Hong Kong

Shipment Way:

DHL/Fedex/TNT/UPS/EMS

REQUEST FOR QUOTATION

Image may be representation. See specifications for product details.

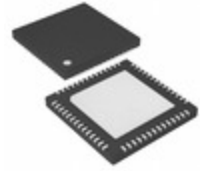

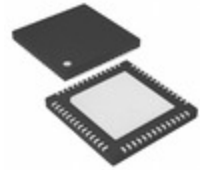

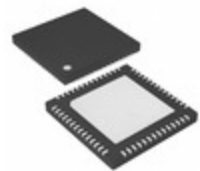

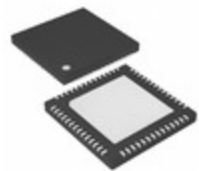

Specifications of MAX2135AE/W+CL8

|                                  |                                                                                                         |
|----------------------------------|---------------------------------------------------------------------------------------------------------|
| PART NUMBER                      | MAX2135AE/W+CL8                                                                                         |
| MANUFACTURER                     | Maxim Integrated                                                                                        |
| DESCRIPTION                      | IC TUNER ISDB WAFER EPSON                                                                               |
| LEAD FREE STATUS / ROHS STATUS   | Lead free / RoHS Compliant                                                                              |
| DATA SHEET                       |  MAX2135AE/W+CL8.pdf |
| VOLTAGE - SUPPLY                 | 2.7 V ~ 3.47 V                                                                                          |
| SERIES                           | -                                                                                                       |
| SENSITIVITY                      | -99dBm                                                                                                  |
| OPERATING TEMPERATURE            | -40°C ~ 85°C                                                                                            |
| MOISTURE SENSITIVITY LEVEL (MSL) | Vendor Undefined                                                                                        |
| MODULATION OR PROTOCOL           | -                                                                                                       |
| MEMORY SIZE                      | -                                                                                                       |
| LEAD FREE STATUS / ROHS STATUS   | Lead free / RoHS Compliant                                                                              |
| FREQUENCY                        | 90MHz ~ 108MHz, 170MHz ~ 222MHz, 470MHz ~ 806MHz                                                        |
| FEATURES                         | -                                                                                                       |
| DETAILED DESCRIPTION             | - RF Receiver 90MHz ~ 108MHz, 170MHz ~ 222MHz, 470MHz ~ 806MHz -99dBm                                   |
| DATA RATE (MAX)                  | -                                                                                                       |
| DATA INTERFACE                   | I <sup>2</sup> C                                                                                        |
| CURRENT - RECEIVING              | 70mA                                                                                                    |
| APPLICATIONS                     | General Purpose                                                                                         |
| ANTENNA CONNECTOR                | -                                                                                                       |
