

SSI Technologies, Inc.

P51-3000-S-E-P-20MA-000-000

Part Number: P51-3000-S-E-P-20MA-000-000

Manufacturer/Brand: SSI Technologies, Inc.

Product description: SENSOR 3000PSIS 3/8 UNF 4-20 MA

Datasheets:  P51-3000-S-E-P-20MA-000-000.pdf

RoHs Status:  Lead free / RoHS Compliant

Ship From: Hong Kong

Shipment Way: DHL/Fedex/TNT/UPS/EMS

REQUEST FOR QUOTATION

Specifications of P51-3000-S-E-P-20MA-000-000

|                                 |                                                                                                                     |

| DATA SHEET                      |  P51-3000-S-E-P-20MA-000-000.pdf |
| VOLTAGE - SUPPLY                | 8 V ~ 30 V                                                                                                          |
| TERMINATION STYLE               | Packard, 3 Pin                                                                                                      |
| SUPPLIER DEVICE PACKAGE         | -                                                                                                                   |
| SERIES                          | MediaSensor™                                                                                                        |
| PRESSURE TYPE                   | Sealed Gauge                                                                                                        |
| PORT STYLE                      | Threaded                                                                                                            |
| PORT SIZE                       | Male - 3/8" (9.52mm) UNF                                                                                            |
| PACKAGE / CASE                  | Cylinder                                                                                                            |
| OUTPUT TYPE                     | Analog Current                                                                                                      |
| OUTPUT                          | 4 mA ~ 20 mA                                                                                                        |
| OTHER NAMES                     | P51-3000-S-E-P-20MA<br>P51-3000-S-E-P-20MA-ND                                                                       |
| OPERATING TEMPERATURE           | -40°C ~ 105°C                                                                                                       |
| OPERATING PRESSURE              | 3000 PSI (20684.27 kPa)                                                                                             |
| MAXIMUM PRESSURE                | -                                                                                                                   |
| MANUFACTURER STANDARD LEAD TIME | 7 Weeks                                                                                                             |
| LEAD FREE STATUS / ROHS STATUS  | Lead free / RoHS Compliant                                                                                          |
| FEATURES                        | Amplified Output, Temperature Compensated                                                                           |
| DETAILED DESCRIPTION            | Pressure Sensor 3000 PSI (20684.27 kPa) Sealed Gauge Male - 3/8" (9.52mm) UNF 4 mA ~ 20 mA Cylinder                 |
| ACCURACY                        | ±0.5%                                                                                                               |
