| DESCRIPTION                      | TRANSMTR RF 902-928MHZ 8P/100S                                                                          |
| LEAD FREE STATUS / ROHS STATUS   | Lead free / RoHS Compliant                                                                              |
| DATA SHEET                       |  TXM-900-HP3-SPS.pdf |
| VOLTAGE - SUPPLY                 | 2.8 V ~ 13 V                                                                                            |
| SERIES                           | HP3                                                                                                     |
| POWER - OUTPUT                   | -3dBm ~ 3dBm                                                                                            |
| PACKAGING                        | Tube                                                                                                    |
| PACKAGE / CASE                   | 24-SMD Module                                                                                           |
| OTHER NAMES                      | Q3400415A                                                                                               |
| OPERATING TEMPERATURE            | -30°C ~ 85°C                                                                                            |
| MOISTURE SENSITIVITY LEVEL (MSL) | 1 (Unlimited)                                                                                           |
| MODULATION OR PROTOCOL           | FM, FSK                                                                                                 |
| MEMORY SIZE                      | -                                                                                                       |
| LEAD FREE STATUS / ROHS STATUS   | Lead free / RoHS Compliant                                                                              |
| FREQUENCY                        | 902MHz ~ 928MHz                                                                                         |
| FEATURES                         | Multiple Channels, Analog and Digital Data                                                              |
| DETAILED DESCRIPTION             | RF Transmitter FM, FSK 902MHz ~ 928MHz -3dBm ~ 3dBm 56 kbps PCB, Surface Mount Antenna 24-SMD Module    |
| DATA RATE (MAX)                  | 56 kbps                                                                                                 |
| DATA INTERFACE                   | PCB, Surface Mount                                                                                      |
| CURRENT - TRANSMITTING           | 14mA                                                                                                    |
| APPLICATIONS                     | ISM, Remote Monitoring, Telemetry, Voice / Audio                                                        |
| ANTENNA CONNECTOR                | PCB, Surface Mount                                                                                      |
