| DATA SHEET                       |  RXM-900-HP3-PPS.pdf |
| VOLTAGE - SUPPLY                 | 2.8 V ~ 13 V                                                                                            |
| SUPPLIER DEVICE PACKAGE          | 18-SIP                                                                                                  |
| SERIES                           | HP3                                                                                                     |
| SENSITIVITY                      | -100dBm                                                                                                 |
| PACKAGING                        | Tube                                                                                                    |
| PACKAGE / CASE                   | 18-SIP                                                                                                  |
| OTHER NAMES                      | RXM-900-HP3-PPS-ND<br>RXM-900-HP3-PPS_<br>RXM900HP3PPS                                                  |
| OPERATING TEMPERATURE            | -30°C ~ 85°C                                                                                            |
| MOISTURE SENSITIVITY LEVEL (MSL) | 1 (Unlimited)                                                                                           |
| MODULATION OR PROTOCOL           | FM, FSK                                                                                                 |
| MEMORY SIZE                      | -                                                                                                       |
| LEAD FREE STATUS / ROHS STATUS   | Lead free / RoHS Compliant                                                                              |
| FREQUENCY                        | 902MHz ~ 928MHz                                                                                         |
| FEATURES                         | Multiple Channels, Analog and Digital Data                                                              |
| DETAILED DESCRIPTION             | HP3 RF Receiver FM, FSK 902MHz ~ 928MHz -100dBm 56 kbps Through Hole 18-SIP                             |
| DATA RATE (MAX)                  | 56 kbps                                                                                                 |
| DATA INTERFACE                   | PCB, Through Hole                                                                                       |
| CURRENT - RECEIVING              | 18mA                                                                                                    |
| APPLICATIONS                     | Home / Industrial Automation, Remote Access, Security Alarms                                            |
| ANTENNA CONNECTOR                | Through Hole                                                                                            |
